### Notice to Fishermen

First Published: 25 August 2016 | **Latest Update: 25 August 2016**

## South Coast Fisheries Liaison Update – Q3 2016

At the South Coast Dredging/Fishing Liaison Committee meeting that took place in February 2016, it was agreed to trial an alternative way of sharing relevant information relating to marine aggregate dredging activities and the commercial fishing sector. This would look to mirror the approach employed for the equivalent East Coast liaison arrangements since June 2012.

Both sectors agreed that while the local focus remained important, the lines of communication and contacts now existed to allow bi-lateral discussions to take place should any specific liaison issues arise. This had increasingly resulted in the liaison committee meetings becoming a forum for more general updates.

As an alternative, a single annual liaison meeting will continue to take place in the winter. This will then be supplemented by a written report that provides an update of issues to be circulated electronically, in place of the additional summer liaison committee meetings that has traditionally occurred.

The first South coast issues update has now been produced and is available to be downloaded via this web page: [http://www.bmapa.org/issues/other\\_sea\\_users.php](http://www.bmapa.org/issues/other_sea_users.php)

The usefulness and effectiveness of this approach as a replacement for the summer liaison committee meeting will continue to be reflected upon at the next meeting of the South Coast Dredging/Fishing Liaison Committee scheduled to take place during January/February 2017.

If you have any thoughts on the usefulness or relevance of the information contained within this update, or have any suggestions as to how the liaison arrangements between the marine aggregate and commercial fishing sectors can be improved we would welcome your comments via [bmapa@mineralproducts.org](mailto:bmapa@mineralproducts.org)

*The first South coast issues update has now been produced and is available to be downloaded via this web page:* [http://www.bmapa.org/issues/other\\_sea\\_users.php](http://www.bmapa.org/issues/other_sea_users.php)

### Notice to Fishermen

## Regional Active Dredge Area Charts – Issue 28 now available

Regional Active Dredge Area (RADA) charts are routinely produced by the British Marine Aggregate Producers Association (BMAPA) and The Crown Estate on a bi-annual basis.

Issue 28 of these charts (dated 31<sup>st</sup> July 2016) is now available to be downloaded from [http://www.bmapa.org/issues/other\\_sea\\_users.php](http://www.bmapa.org/issues/other_sea_users.php)

Hard copy laminated versions of these charts have been provided to local MMO offices for circulation to local fisheries interests, and hard copies can also be obtained by contacting [bmapa@mineralproducts.org](mailto:bmapa@mineralproducts.org).

*For further information on these charts can be obtained by contacting:* [bmapa@mineralproducts.org](mailto:bmapa@mineralproducts.org)

## Area 507 – Amendment to Active Dredge Zone

On behalf of CEMEX UK Marine Limited, this notice is to advise that the Active Dredge Zone (ADZ) for Area 507 (Marine Licence L12014\00026) has been amended, co-ordinates given below.

It is anticipated that extraction will commence within this area on or after 8th September 2016.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF Channel 16 when approaching the dredging area at a range of 10 nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.

## Vibrocore Sampling – Various Areas

**UPDATE: Works are continuing with completion due in the next two months.**

On behalf of Hanson Aggregates Marine Ltd this notice is to advise that a vibrocore sampling campaign is due to commence shortly in existing marine aggregate extraction Areas 106/400 & 480 in the Humber region, Areas 212 & 240 in the Anglian region, Area 435/1 and pre-application Area 500 in the South Coast region and existing marine aggregate extraction Area 472 in the Bristol Channel region.

It is anticipated that operations will commence on or after 15th May 2016 and take approximately 2-3 months to complete.

As required by the Fisheries Code of Practice, Masters of vessels will call up on VHF Channel 16 when approaching the dredging area at a range of 10 nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the vessel and fishing vessel(s) if required.

## Marine Licence variation for Marine Aggregate Dredging – Area 340

**Please note the Marine Management Organisation (MMO) has recently issued a variation to the Marine Licence for marine aggregate dredging Area 340, East of the Isle of Wight.**

The variation removes the previously imposed restrictions, and now permits dredging to take place anywhere within the Marine Licence Boundary as defined by the coordinates listed below. Therefore notice is hereby given that from the 18th July 2016 onwards dredgers may be operating anywhere within the Marine Licence Boundary.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF 16 when approaching the dredging area at a range of 10nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.

**Marine Licence Boundary**
