For 'live' Kingfisher updates of offshore activities follow [@KingfisherInfo](#) on Twitter**Notice to Fishermen**First Published: 29 June 2016 | **Latest Update: 29 June 2016****Marine Licence variation for Marine Aggregate Dredging – Area 340**

**Please note the Marine Management Organisation (MMO) has recently issued a variation to the Marine Licence for marine aggregate dredging Area 340, East of the Isle of Wight.**

The variation removes the previously imposed restrictions, and now permits dredging to take place anywhere within the Marine Licence Boundary as defined by the coordinates listed below. Therefore notice is hereby given that from the 18th July 2016 onwards dredgers may be operating anywhere within the Marine Licence Boundary.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF 16 when approaching the dredging area at a range of 10nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.
