STAY UPTO DATE - ALWAYS ENSURE YOU HAVE THE LATEST KINGFISHER BULLETIN AND OFFSHORE FISHING PLOTTER DATA ON-BOARD.

## Support

The Kingfisher Bulletin is provided by the Kingfisher Information Service of Seafish, to promote the awareness of offshore hazards to fishing, new structures and zones and conflicting offshore operations. Support for the production of aggregate industry information is received from the British Marine Aggregate Producers Association (BMAPA) and The Crown Estate.

## Information

Information contained within the Kingfisher Bulletin comes from a variety of sources, although is in the majority, supplied directly to Kingfisher from the offshore operating industry, or government licensing authorities.

Coordinates within the Kingfisher Bulletin are converted into World Geodetic System 1984 (WGS84) and displayed as degrees, minutes and decimal minutes, to three decimal places (ddd°mm.mmm'). Route or boundary coordinates may be simplified for ease of use.

## Disclaimer and Limitation of Liability

Whilst reasonable steps have been taken to ensure its accuracy, the data contained in this Bulletin ("Bulletin Data") is not verified. Neither Seafish nor British Marine Aggregate Producers Association or The Crown Estate (together the "Parties" and each a "Party") makes any warranty, express or implied, as to accuracy, completeness or suitability for any particular purpose of the Bulletin Data. Except for any liability which cannot be excluded or limited by applicable law, none of the Parties shall have any liability to You, meaning any person, firm, partnership, corporate body or any other legal person receiving or otherwise using, or benefitting from the use of, Bulletin Data for any damage or losses (including indirect, incidental, special or consequential loss or damage) caused by any: (i) use of the Bulletin Data, or (ii) error or omission in the Bulletin Data. Notwithstanding the foregoing exclusion of liability, in the event that any of the Parties are found liable to You, then the Parties' entire liability in such event, whether in contract, delict (including negligence) or otherwise, shall not exceed £1,000. The Admiralty Notices to Mariners should also be consulted.

## Deployment of Buoys

First Published: 09 August 2018 | Latest Update: 09 August 2018

## Dunnet Head, Pentland Firth – ADCP Deployment with surface marker buoys

**The Environmental Research Institute (Thurso) is deploying a sea-bed mounted frame, with 2 surface marker buoys. The frame will be located approximately 1000m NNE of Dunnet Head Lighthouse.**

The frame will have 2 sets of surface marker buoys (bright orange). Each marker buoy will be located approximately 100m from the central frame position. Each marker buoy will be tethered to a subsurface weight (400kg), one by 2 x 2 100m lengths of steel wire, the other with 16mm polypropylene rope

The purpose of this deployment is to measure the effect of tidal current on waves and vice versa.

The location of the frame is approximately 58°40.801' N 3°21.612"W

Deployment is 05 August 2018 and the frame will remain in place until 27 November 2018

Vehicles are advised to avoid approaching within 200m of this position in order to avoid the marker buoys and associated moorings

**For further information, please contact:** Environmental Research Institute, Thurso, Dr Philippe Gleizon (Work) 01847 889666 (Mobile) 07817 798717 email: [Philippe.Gleizon@uhi.ac.uk](mailto:Philippe.Gleizon@uhi.ac.uk), Dr Jason McIlvenny (work) 01847 889663 (Mobile) 07920 091968 email: [Jason.McIlvenny@uhi.ac.uk](mailto:Jason.McIlvenny@uhi.ac.uk)

## New Marine Licence for Marine Aggregate Dredging – Area 453

On behalf of CEMEX UK Marine Limited, this notice is to advise that a Marine Licence for marine aggregate dredging has recently been issued by the Marine Management Organisation (MMO) for Area 453 on the South Coast.

Area 453 is defined by the WGS84 co-ordinates in the table below:

Marine Licence Boundaries

Area 453	
Latitude	Longitude
50°43.333'N	00°32.358'W
50°43.141'N	00°32.266'W
50°43.195'N	00°30.973'W
50°43.232'N	00°30.092'W
50°43.265'N	00°30.092'W
50°43.136'N	00°29.146'W
50°43.321'N	00°29.124'W
50°43.622'N	00°29.705'W
50°43.548'N	00°31.678'W
50°43.431'N	00°32.292'W

It is anticipated that operations will commence on or after 1<sup>st</sup> July 2018.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF Channel 16 when approaching the dredging area at a range of 10 nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.

**For further information, please contact:** Joe Holcroft, CEMEX UK Marine Ltd, Tel: 023 8072 0217 email: [joseph.holcroftj@cemex.com](mailto:joseph.holcroftj@cemex.com)

## Survey Activity

First Published: 09 August 2018 | Latest Update: 09 August 2018

### Seabed Grab Survey – Anglian Region

On behalf of the Anglian Offshore Dredging Association (AODA), this notice is to advise that a benthic sampling campaign is will be undertaken in the Anglian Region throughout August and September.

Current date of commencement of operations is 10th August 2018 subject to existence of a suitable weather window. The grab survey will employ a 0.1m<sup>2</sup> Hamon grab to obtain seabed sediment samples. A drop-down video system may also be employed at locations where grab surveys are unsuccessful in acquiring sediment samples.

The geophysical survey will be completed from the 'DSV Curtis Marshall'. The grab survey works will be completed from a vessel to be confirmed. Final vessel details will be provided when known. The survey will take approximately 8 weeks to complete once operations are underway, subject to weather. Further updates will be provided in this publication as the surveys progress.

General coordinates for the survey area:

Latitude	Longitude
52°50.478'N	01°39.640'E
52°50.528'N	02°21.304'E
52°11.177'N	02°16.720'E
52°11.328'N	01°48.071'E
52°38.954'N	01°47.580'E

**For further information, please contact:** Stuart Lowe, Regional Seabed Monitoring Programme Coordinator. Tel: 02380 381 945 or 07717 583 042, Email: [rsmpp@marinespace.co.uk](mailto:rsmpp@marinespace.co.uk)

## Seabed Grab Survey – Thames Region

On behalf of the Thames Estuary Dredging Association (TEDA), this notice is to advise that a benthic sampling campaign is will be undertaken in the Anglian Region throughout August and September.

Current date of commencement of operations is 31st July 2018 subject to existence of a suitable weather window. The geophysical survey will acquire multibeam and sidescan sonar. The grab survey will employ a 0.1m<sup>2</sup> Hamon grab to obtain seabed sediment samples. A drop-down video system may also be employed at locations where grab surveys are unsuccessful in acquiring sediment samples.

The grab survey works will be completed from the vessel 'Aquadynamic'. The survey will take approximately 8 weeks to complete once operations are underway, subject to weather. Further updates will be provided in this publication as the surveys progress.

General coordinates for the survey area:

Thames	
Latitude	Longitude
52°09.587'N	01°40.896'E
52°09.215'N	01°58.865'E
51°45.462'N	02°27.462'E
51°30.138'N	02°12.084'E
51°26.955'N	01°29.146'E
51°46.909'N	01°19.729'E

For further information, please contact: Stuart Lowe, Regional Seabed Monitoring Programme Coordinator. Tel: 02380 381 945 or 07717 583 042, Email: [rsmppc@marinespace.co.uk](mailto:rsmppc@marinespace.co.uk)

## Geophysical and Seabed Grab Survey – Anglian Region

On behalf of Britannia Aggregates Limited and Volker Dredging Limited, this is to advise that CMS Geotech Ltd will be undertaking vibrocoring surveys on Areas 461 and 498.

The work will be carried out during daylight hours, using the survey vessel the MV FlatHolm between the 1<sup>st</sup> July and the 31<sup>st</sup> August. The vessel will have restricted manoeuvrability whilst coring is being undertaken, however work will be confined to the existing licence boundaries as shown below:

Marine Licence Boundary Area 461	Marine Licence Boundary Area 498
50°18.1045' N 00°10.6605' E	52°03.2760' N 01°54.9086' E
50°17.4428' N 00°10.8322' E	52°01.1595' N 01°54.7254' E

50°17.4181' N 00°14.8352' E	52°02.9427' N 01°55.9252' E
50°18.6912' N 00°14.1644' E	52°03.2760' N 01°54.9086' E
50°18.1045' N 00°10.6605' E	

**For further information, please contact:** Richard Fifield, Britannia Aggregates Ltd, email: [richard.fifield@brett.co.uk](mailto:richard.fifield@brett.co.uk) Will Drake, Volker Dredging Ltd, email: [will.drake@brett.co.uk](mailto:will.drake@brett.co.uk)

## New Marine Aggregate Licence – (Area 526)

On behalf of CEMEX UK Marine Limited, Tarmac Marine Limited and Hanson Aggregates Marine Limited this notice is to advise that a Marine Licence for marine aggregate dredging has recently been issued by the Marine Management Organisation (MMO) and Natural Resources Wales (NRW) for Area 526 in the Bristol Channel.

Area 526 is defined by the following co-ordinates in the table below.

51°17.750'N 03°19.312'W
51°18.302'N 03°16.620'W
51°18.467'N 03°13.819'W
51°18.535'N 03°12.654'W
51°19.079'N 03°10.228'W
51°19.106'N 03°09.712'W
51°18.756'N 03°09.538'W
51°18.410'N 03°10.002'W
51°17.829'N 03°12.134'W
51°17.850'N 03°12.547'W
51°17.726'N 03°12.795'W
51°17.708'N 03°14.828'W
51°17.176'N 03°18.377'W
51°17.315'N 03°19.584'W

It is now anticipated that operations will commence on or after 13<sup>th</sup> August 2018.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF Channel 16 when approaching the dredging area at a range of 10 nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required

## Grab Sampling Survey - Fish farm Sites in Loch Linnhe and Loch Leven

**Please be advised that the Scottish Association for Marine Science (SAMS) will be undertaking a small sediment grab survey in proximity to the Leven, Gorsten and Ardgour fish farm sites within Loch Leven and Loch Linnhe.**

The survey will proceed during an appropriate weather window between the 21st of August and 23rd of August 2018. The sampling activity is not extensive and will be completed within 2-3 days after starting. We will use our own boat, R.V. Seol Mara, which is a 10.4m research/survey vessel. The works will be flexible and can be moved/coordinated around other activities if essential. Survey work will only be undertaken during daylight hours. No fixed installations or equipment will be left on the seabed either during or after the survey.

The sampling will be undertaken within the following limits:

Within Loch Linnhe bounded by the points; 56°43.615'N 5°14.198'W , 56°48.493'N 5°8.750'W , 56°48.445'N 5°7.962'W , 56°44.185'N 5°15.120'W , 56°45.517'N 5°13.801'W

Within Loch Leven bounded by the points; 56°41.242'N 5°8.564'W , 56°41.627'N 5°6.154'W , 56°41.904'N 5°6.123'W , 56°41.084'N 5°8.306'W

**For further information, please contact:** Anja Wittich, SAMS, Tel: 01631559490, Email: [Anja.Wittich@sams.ac.uk](mailto:Anja.Wittich@sams.ac.uk)
