

Aquaculture Development in England:

Pre-Application Regulator/Authority Consultation Guidance for Developers

The organisations listed below are those that regulate aquaculture development, routinely advise those regulators, or grant seabed and foreshore title rights. Failure to acquire the required consents listed for development, or agreement on favourable recommendations for those consents, or secure seabed/foreshore rights, will preclude any development. It is therefore essential that all those authorities relevant to the particular development proposed are consulted at an early stage to identify any significant and potentially insurmountable issues prior to proceeding with any application process.

Regulator/Authority	Regulatory/Authorising Remit	Consent/Authorisation	Applicable Species		
			Finfish	Shellfish	Seaweed
Local Authorities	Granting of development consents for land based fish farms. Consultee for marine based aquaculture developments.	Planning Permission	Yes	Yes	Yes
Marine Management Organisation Licensing team(MMO)	Licensing of all finfish farms and those shellfish farm where exemptions do not apply. Screening if an EIA or HRA is required	Marine Licence	Yes	Possibly	Yes
Centre for Environment Fisheries & Aquaculture science (Cefas).	Advisors to regulating authorities on certain environmental impacts of development proposals. In some situations responsible for ensuring HRA takes place.	Environmental Impact Assessment (EIA)or Habitats Risk Assessment (HRA)	Yes	Yes	Yes
Fish Health Inspectorate (FHI)	Authorisation of aquaculture production businesses (APBs) under the Aquatic Animal Health (England & Wales) Regulations 2009	Authorisation to operate an APB Authorisation to import livestock	Yes	Yes	No
	Permitting under the Alien and Locally Absent Species in Aquaculture (England & Wales) Regulations 2011.	Permitting farming of alien species.	Yes	Yes	Yes
