*The Hazard List is a collection of potential fishing hazards supplied to Kingfisher from across all offshore industries. Potential hazards will be listed for 6 months.*
Regional Active Dredge Area Charts – Issue 27 now available

Regional Active Dredge Area (RADA) charts are routinely produced by the British Marine Aggregate Producers Association (BMAPA) and The Crown Estate on a bi-annual basis. Issue 27 of these charts (dated 31st January) is now available to be downloaded from http://www.bmapa.org/issues/other_sea_users.php. Hard copy laminated versions of these charts have been provided to local MMO offices for circulation to local fisheries interests, and hard copies can also be obtained by contacting bmapa@mineralproducts.org.

For further information on these charts can be obtained by contacting: bmapa@mineralproducts.org

Survey

Seabed Sampling – Dover Strait TSS

Mariners are advised that CMS Geotech will be undertaking seabed sampling works within the South West traffic lane of the Dover Strait TSS for approximately 1 day depending on weather conditions during the period 15th July - 29th July.

The vessel will hold station for up to 10 minutes on each location with a variety of headings showing on AIS according to prevailing conditions.

Survey operations will be undertaken from the 23m research vessel “MV FlatHolm” – 23m length, blue hull, white superstructure forward and large A frame aft. Callsign “GHLZ” / GSM telephone number - 00 44 7702 169004 / SatPhone - 00 88 1631 448341

For further information, please contact: David Hitchcock, CMS Geotech Ltd, Mob: +44 (0) 7852 981505, Tel: +44 (0) 1502 514641
UPDATE: Works are continuing with completion due in the next two months.

On behalf of Hanson Aggregates Marine Ltd this notice is to advise that a vibrocore sampling campaign is due to commence shortly in existing marine aggregate extraction Areas 106/400 & 480 in the Humber region, Areas 212 & 240 in the Anglian region, Area 435/1 and pre-application Area 500 in the South Coast region and existing marine aggregate extraction Area 472 in the Bristol Channel region.

It is anticipated that operations will commence on or after 15th May 2016 and take approximately 2-3 months to complete.

As required by the Fisheries Code of Practice, Masters of vessels will call up on VHF Channel 16 when approaching the dredging area at a range of 10 nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the vessel and fishing vessel(s) if required.

For further information, please contact: Louise Mann, Hanson Aggregates Marine Ltd, Tel: +44(0)2380 828256  email: louise.mann@hanson.biz
## Survey

### Survey – Anglian Region 240

On behalf of Hanson Aggregates Marine Ltd this notice is to advise that a geophysical survey is due to commence shortly in existing marine aggregate extraction Area 240 (Anglian region).

Notice to Fishermen

First Published: 29 June 2016  |  Latest Update: 29 June 2016

Marine Licence variation for Marine Aggregate Dredging – Area 340

Please note the Marine Management Organisation (MMO) has recently issued a variation to the Marine Licence for marine aggregate dredging Area 340, East of the Isle of Wight.

The variation removes the previously imposed restrictions, and now permits dredging to take place anywhere within the Marine Licence Boundary as defined by the coordinates listed below. Therefore notice is hereby given that from the 18th July 2016 onwards dredgers may be operating anywhere within the Marine Licence Boundary.

As required by the Fisheries Code of Practice, Masters of Dredging vessels will call up on VHF 16 when approaching the dredging area at a range of 10nm (approximately 1 hour before operations are to commence) and will provide an estimated time of arrival on the area and position of operation. A VHF working channel will be established between the dredger and fishing vessel(s) if required.

Marine Licence Boundary

1. 50°36.1549’N 01°04.2379’W
2. 50°36.4784’N 01°03.6868’W
3. 50°36.4817’N 01°00.7838’W
4. 50°35.0067’N 01°00.5832’W
5. 50°35.9016’N 01°00.1061’W
6. 50°34.0321’N 01°00.0880’W
7. 50°34.0318’N 01°01.3887’W
8. 50°35.7236’N 01°03.9264’W
9. 50°36.1549’N 01°04.2379’W
